## THE DEPENDABLE, ECONOMIC, DEPARTMENTAL ALL-ROUNDER

The office workhorse, this printer will run and run, printing up to 50 ppm and integrating perfectly into any network environment. The device has enhanced security features, flexible paper handling options with a maximum paper capacity of 2,600 sheets. It's long life components mean incredibly low running costs and impact on the environment.

- Up to 50 pages per minute in A4 with up to 1,200 dpi resolution
- Gigabit network functionality as standard
- Lowest power consumption (TEC) in its class
- Duplex printing and N-up printing reduces paper consumption
- Up to 6 paper trays for superior flexibility and high capacity
- Alphanumeric keypad for easy password entering (Private Print)
- Advanced document handling with optional SD cards
- Long-life drum and developer lasts for 500,000 pages A4
- Exceptionally low printing costs in its class

Within the first 500,000 pages only toner needs to be exchanged. This results in cost savings and waste reduction.

Secure and easy printing provided by a document box and a numeric keypad for simple access.

MONOCHROME PRINTER FOR A4 FORMATS

ECOSYS stands for ECOlogy,  
ECONomy and SYStem-printing.

With their long-life components, ECOSYS devices are designed to maximise durability and minimise the total cost of ownership with regard to maintenance, administration and consumables. The cartridge-free system means that only the toner has to be replaced regularly. The modular design concept allows you to add workflow-enhancing functions as required. Integrated system software provides long-term crossnetwork compatibility. KYOCERA's long-life components cost you and the environment less.

## PRESCRIBE IIe

With the KYOCERA page design and control language PRESCRIBE IIe, even complex graphics, logos and forms (multipart forms) can be created independently on the system and saved and updated in the printer. Consequently, integration into print files no longer applies. They are only accessed as required and therefore relieve the load on the network.

## KYOCERA NetViewer

KYOCERA NetViewer enables complete monitoring and control of all ECOSYS printers and digital KYOCERA multifunction units from any Windows® PC and thus provides ideal network administration. It also supports the standardised SNMP protocol.

## Command Center RX

The Command Center RX enables to control and manage various settings by accessing the device via Web browser. E.g. automatically updating of screens, customizing user screens, viewing department & restriction settings.

## USB Host Interface for USB Flash Memory

Documents can be printed directly from a USB Flash Memory (e.g. USB stick) via the USB host interface. The documents stored as PDF, XPS, TIFF or JPEG are selected directly via the printer's control panel. No computer is required.
